MEMORANDUM FOR: Deputy Director (Support)

SUBJECT: Study of Agency Overtime Practices

1. The attached study of agency overtime practices has been coordinated with the Director of Personnel, the Comptroller and the General Counsel. In concurring, the Acting Comptroller recommended coordination with the General Counsel with regard to the legality of paragraph 3B2.

2. The General Counsel found the proposed language change in paragraph 3c(2) of proposed regulation legally objectionable since it would result in a denial of overtime compensation (paid or compensatory) to some employees required to take compensatory time off for overtime worked and then denied the opportunity to take the time off. The objectionable words have been deleted from the proposed regulation.

25X1

3. If you approve the proposed regulation please return it to the Management Staff for coordination with the DD/I, DD/P and the IG, and for further processing.
